1. The Annual Bridge Car Show Returns to the Hamptons

While most believe Hamptons season ends on Labor Day, one of the most incredible events happens after the summer crowd has moved on. Taking place on September 17, [the Bridge VI](#) brings together an exclusive group of car enthusiasts for an invite-only presentation of 250 of the world's most impressive autos. Set on a scenic golf course that was once the site of the East End's notoriously challenging racetrack, the event will feature rare vintage examples, like the 1967 Ferrari Dino Shooting Brake Prototype by Pininfarina, unseen in public since 1968, and a 1957 BMW 507 Series II roadster with hardtop, which is coming up for auction at Bonhams. New and notable designs from Bentley, Aston Martin, Rolls-Royce, McLaren, Bugatti, Koenigsegg, and Pagani will be parked on the Bridge's manicured fairway, as will Czinger Vehicles's 21C V Max, which is making its East Coast debut. "We've come a long way in five years, from an informal gathering of the vehicular tribes to a beautifully executed afternoon of hundreds of cars and thousands of enthusiasts, complemented by great views, music, food, and drink," Bridge co-founder Robert Rubin tells *Galerie*. "A fitting elegy to a historic site."

This year, the Bridge is opening up the gathering to the public with a ticketed option at Topping Rose House in Bridgehampton, where other remarkable cars will be installed in the bucolic gardens. Guests at that event, which will benefit Southampton Youth Services, can also enjoy light bites by chef Jean-Georges Vongerichten. —Jill Sieracki
